

 **Waidringer panorama path**

## Waidringer panorama path

### Information

The starting point is in the community of Strub (by the Ascherbauer). Take the forest path to the turnoff Griessbachersteig. And further on to the Kitzgrabenhütte. Peak tip: from here a steep track leads in a few serpentines up to the Brunnkopf (1.780 m). DIFFICULT! Walk past the Kitzgrabenhütte and follow the path on the left downhill towards the valley through the Teufelsklamm to the parking across Gasthof St. Adolari. Continue to the right and take the street to Peiting/Schöttlbauer, right at the "Mühlbergs" to the Schäferaukapelle and the take the shady path all the way to the Kneippanlage/Seisenbachquelle back to the starting point.
